SUBJECT : OIA Response to Supergrade Queries

1. At the NFAC Career Service Board meeting on 8 September, [REDACTED] requested that each office examine its supergrade situation to determine if: a) there are any employees at supergrade level who are not occupying supergrade positions; b) there is expected to be any attrition of supergrade personnel in the next year; and c) if there are any personnel who the office expects to recommend for promotion into supergrade positions this fall.

2. The OIA does not have any employees that fit these criteria. The only supergrade positions in OIA are occupied by Noel and myself, and both of us are within the authorized grade level. Neither of us anticipates leaving OIA in the near future. Since the office has no other supergrade positions, we do not plan to promote anyone else to this level. The only other individual in a supergrade position who shows up on the OIA roster is [REDACTED]. We have been assured by [REDACTED] that OIA does not have to be concerned about him for the purpose of this exercise.
